FYI.

Fox News-LA makes Region 9 look pretty bad for not protecting the environmental health of the students and teachers

(Folks this case is giving me deja vu of the late 1970s -- Love Canal-- Plus ca change, plus cell meme chose?)

P.S. I suggest that it might be bad PR for EPA folks to continue to appear before very wealthy and very well connected Malibu parents, guarded by Sheriffs Deputies facing Federal Criminal Grand Jury indictments for Assaults and Obstruction of Justice (<http://www.latimes.com/local/la-me-jail-investigation-20131213,0,4826704.story#axzz2nPxHnYFK>)
